

Cloud computing exploded in 2020 and 2021 as work went virtual and businesses adapted to the global pandemic by focusing on digital services. Undoubtedly, strong adoption and expansion will continue in 2022. - **Forbes**

CLOUD COMPUTING

Break new barriers for your business and maintain your competitive advantage.

A business "No Cloud" policy, according to Gartner, will soon be as uncommon as a "No Internet" policy. As a result of this progress, the demand for qualified Cloud Computing workers will rise. Give your organisation a renewed lifeline by championing cloud computing through Deviare's cloud computing courses which provide leading accreditation and skills in AWS, Azure, Google Cloud and DevOps.

Enhance your workforce with critical digital skills.

There can be no digital transformation without the transformation of skills to new and modern areas. We know that it takes more than simply staff training to improve a workforce's abilities. Deviare's learning platform provides an adaptable, continuous learning experience with effective feedback loops tailored to each individual's needs. Organisations must invest in the ongoing development of skills that fulfil technical certification criteria while also covering enough of the business environment to be valuable for the organisation.

We provide corporate training in the emerging technologies that are transforming our economy. Our Adaptive Learning Platform can curate customised learning while accommodating for large candidate volumes. The workforce skills transformation produces an applied skill with the appropriate accreditation, where applicable.

Are you looking to up-skill or re-skill your employees so that your organisation can prosper in the digital age? Get in touch.
