

Adding a cyber security expert to the board of directors has emerged as a 2021 security and risk trend. - **Gartner**

CYBER SECURITY

Harness pertinent skills to secure your business network.

With data comes risk. According to Gartner, enterprises store and handle vast amounts of sensitive personal data.

Cybersecurity speaks to a series of technologies, techniques and practices designed to protect networks, computers, and data from unauthorised access, damage and malicious attack. Deviare's Cybersecurity courses prepare organisations to identify, oppose and prevent threats to their most valuable resources.

OUR TRUSTED PROGRAMME PARTNERS

Explore our Cyber Security Master's Programme

Enhance your workforce with critical digital skills.

There can be no digital transformation without the transformation of skills to new and modern areas. We know that it takes more than simply staff training to improve a workforce's abilities. Deviare's learning platform provides an adaptable, continuous learning experience with effective feedback loops tailored to each individual's needs. Organisations must invest in the ongoing development of skills that fulfil technical certification criteria while also covering enough of the business environment to be valuable for the organisation.

We provide corporate training in the emerging technologies that are transforming our economy. Our Adaptive Learning Platform can curate customised learning while accommodating for large candidate volumes. The workforce skills transformation produces an applied skill with the appropriate accreditation, where applicable.

Are you looking to up-skill or re-skill your employees so that your organisation can prosper in the digital age? Get in touch.
