

According to **IDC**, revenues from Big Data and Business Analytics to hit R3.9 Trillion in 2022.

DATA SCIENCE & BUSINESS ANALYTICS

Gain an informed perspective to drive business success.

With over 2.5 quintillion bytes of data gathered daily, businesses need the tools and skills to harness this data to turn it into actionable insights. As a result, data science and business analytics have grown exponentially in demand, creating employment opportunities for individuals and growth opportunities for organisations.

Through Deviare's Data Science and Business Analytics courses, organisations can be well poised to redefine success and achieve digital transformation.

Data Science with Python

★ 4.40 (11515 Ratings) | 28K Learners

Enhance your workforce with critical digital skills.

There can be no digital transformation without the transformation of skills to new and modern areas. We know that it takes more than simply staff training to improve a workforce's abilities. Deviare's learning platform provides an adaptable, continuous learning experience with effective feedback loops tailored to each individual's needs. Organisations must invest in the ongoing development of skills that fulfil technical certification criteria while also covering enough of the business environment to be valuable for the organisation.

We provide corporate training in the emerging technologies that are transforming our economy. Our Adaptive Learning Platform can curate customised learning while accommodating for large candidate volumes. The workforce skills transformation produces an applied skill with the appropriate accreditation, where applicable.

Are you looking to up-skill or re-skill your employees so that your organisation can prosper in the digital age? Get in touch.
